CONTENTS VOLUME 74 MARCH 1985

page 1 TETLEY, L. and VICKERMAN, K. Differentiation in *Trypanosoma brucei*: host–parasite cell junctions and their persistence during acquisition of the variable antigen coat

21 DE CAPOA, A., MARLEKAJ, P., BALDINI, A., ARCHIDIACONO, N. and ROCCHI, M. The transcriptional activity of individual ribosomal DNA gene clusters is modulated by serum concentration

37 ANDRIES, L., VANROELEN, CH., VAN HOOF, J. and VAKAET, L. Inhibition of cell spreading on the band of extracellular fibres in early chick and quail embryos

51 MAZET, F., DUNIA, I., VASSORT, G. and MAZET, J. L. Ultrastructural changes in gap junctions associated with CO_2 uncoupling in frog atrial fibres

65 PÉBUSQUE, M.-J., VIO-CIGNA, M., ALDEBERT, B. and SEITE, R. Circadian rhythm of nucleoli in rat superior cervical ganglion neurons: the two types of fibrillar centres and their quantative relationship with the nucleolar organizing regions

75 SHIELDS, J. M. and HASTON, W. S. Behaviour of neutrophil leucocytes in uniform concentrations of chemotactic factors: contraction waves, cell polarity and persistence

95 YOUNG, R. D. The ultrastructural organization of proteoglycans and collagen in human and rabbit scleral matrix

105 APPLEYARD, S. T., WITKOWSKI, J. A., RIPLEY, B. D., SHOTTON, D. M. and DUBOWITZ, V. A novel procedure for pattern analysis of features present on freeze-fractured plasma membranes

119 DECKER, R. S., DECKER, M. L., THOMAS, V. and FUSELER, J. W. Responses of cultured cardiac myocytes to lysosomotropic compounds and methylated amino acids

137 GUPTA, B. L., DOW, J. A. T., HALL, T. A. and HARVEY, W. R. Electron probe X-ray microanalysis of the effects of *Bacillus thuringiensis* var *kurstaki* crystal protein insecticide on ions in an electrogenic K^+-transporting epithelium of the larval midgut in the lepidopteran, *Manduca sexta, in vitro*

153 DALE, B. L. and SANTELLA, L. Sperm–oocyte interaction in the sea-urchin

169 STACEY, N. H., BISHOP, C. J., HALLIDAY, J. W., HALLIDAY, W. J., COOKSLEY, W. G. E., POWELL, L. W. and KERR, J. F. R. Apoptosis as the mode of cell death in antibody-dependent lymphocytotoxicity

181 KAMIYA, R. and OKAMOTO, M. A mutant of *Chlamydomonas reinhardtii* that lacks the flagellar outer dynein arm but can swim

193 CROSS, N. L., SLEZYNGER, T. C. and HOLLAND, L. Z. Isolation and partial characterization of *Urechis caupo* egg envelopes

207 STRATH, M. and SANDERSON, C. J. Production and functional properties of eosinophils from bone marrow cultures

219 LACHNEY, C. L. and LONERGAN, T. A. Regulation of cell shape in *Euglena gracilis*. III. Involvement of stable microtubules

239 PLOTON, D., MENAGER, M. and ADNET, J. J. Simultaneous ultrastructural localization of Ag-NOR (nucleolar organizer region) proteins and ribonucleoproteins during mitosis, in human breast cancerous tissues

257 RAHAT, M. and REICH, V. Correlations between characteristics of some free-living *Chlorella* sp. and their ability to form stable symbioses with *Hydra viridis*

267 DOMNINA, L. V., ROVENSKY, J. A., VASILIEV, J. M. and GELFAND, I. M. Effect of microtubule-destroying drugs on the spreading and shape of cultured epithelial cells

283 CHANG, L.-Y., WU, R. and NETTESHEIM, P. Morphological changes in rat tracheal cells during the adaptive and early growth phase in primary cell culture
